TARIFF DISCUSSION.

Senator Jones Makes a Big Silver Speech.

THE GERMAN STEAMER LINES.

Germany Treats Her Shipping Interests Liberally.

An Effort to Release the Chicago Anarchists.

Proceedings of Congress.

WASHINGTON, May 13.—The House went into Committee of the Whole on the tariff bill. McMillan of Tennessee moved to reduce the duty on ammonia, saying there was no reason why an article of necessity to the farmers should be so heavily taxed.

McKinley of Ohio opposed the amendment, saying that since the tariff has encouraged competition in this country, the price of ammonia has been reduced from 20 to 7½ cents per pound.

Butterworth of Ohio suggested that while he knew nothing of the case under consideration, the price of the article was not reduced on account of competition alone, it was reduced on account of improved methods of manufacture. He never doubted that the protective system is wise, humane and beneficent, and that it scattered the blessings on the land from shore to shore. If there is any danger to the protective system it is in the oscillation between the extreme of free trade and the extreme which created inequalities among the Americans themselves. He insisted that we should not create inequalities here, that the protective system dealt with conditions, not the national boundary line. Competition never created new industries; they were created by the work of the brain, by the inventor. The committee tried to do the best it could in framing the bill, but it was always safe to rely altogether upon the testimony of the beneficiaries under the law. [Applause on the Democratic side.] He indicated his belief respecting the proper function of the tariff, and would sooner resign his seat than depart one hair's breadth from that belief. Of course he respected the wisdom of the committee.

But why was Paul favored and Peter turned down? Why increase the profits of certain classes? He could name capitalists whose profits exceeded those of all of the agriculturists of any State in the Union. [Applause on the Democratic side.] He was not, he said, disturbed by the applause on the other side; he was exceedingly grateful that they began to realize in any sense that our countrymen deserved protection.

Butterworth then proceeded to expound his views touching reciprocity with Canada. He said we were endeavoring to cultivate relations with fifty millions of people to the southward, and yet were afraid of Canada. There were some things in the bill he did not like. He had known of an industry that had been able to make \$60,000,000 in dividends on a capital of \$1,250,000. He favored proper protection, but these men held the world in their grasp. When he said he did not favor that kind of protection, he was told, "You are not sound on the tariff." The time has come when some little concern should be shown American homes and American firesides. He did not believe it wise or prudent to make such a sweeping reduction in sugar, to be supplanted by a bounty. The greatest desire of his heart was to pass a bill reflecting in the highest degree the protection system. What he wanted to avoid was paying too much for an industry; such was the case with the tin plate duty, which would amount to \$50,000,000 before the tin plate manufacturers could declare a dividend. He was anxious that his party should not take a false step. He did not expect to participate much in the deliberations of the House hereafter. He was quite as ready to go out as his Democratic friends were anxious to get rid of him when they gerrymandered him out. He was already out before they took that action.

Dingley of Maine said the debate was upon the theory that muriate and sulphate of ammonia are used for producing fertilizers, but the fact is, not a pound is so used.

McMillan's amendment was rejected.

REMARKS.

Among the petitions presented and referred, was one by Quay from the business men of Philadelphia, remonstrating against an increase of the duty

on dress goods made wholly or partly from wool.

The Senate then resumed the consideration of the silver bill, when Jones of Nevada continued his speech began yesterday.

Jones of Nevada concluded his speech at a quarter past three, having spoken five and a quarter hours. He had the same close attention of both parties he had yesterday, and the attendance on the Democratic side at times was larger than on the Republican.

Subsidized Steamship Lines.

HAMBURG, May 13.—The contract between the German Government and the East Africa Steamship Company provides for the payment of a subsidy of 900,000 marks annually. The company undertakes to maintain for ten years a main line of steamers from Hamburg to Delagoa Bay. None of the steamers are to be below 3,200 tons, and their speed shall be ten and a half knots. The steamers will call at a port in either Belgium or Holland, and at Lisbon, Naples, Port Said and Suez. The company will also establish a coast line from Zanzibar to Lamu, and another coast line will be established from Zanzibar to Inhambana.

Said to Have Been Accidental.

NEW YORK, May 13.—The result of the shooting affray between Masterston and Mrs. Alice Hopkinson last evening was that both left the Police Court this morning without giving testimony against each other. Masterston said the shooting was purely accidental. When the announcement was made that both were discharged they left the Court together.

Judge Sabin's Funeral.

SAN FRANCISCO, May 13.—The obsequies of the late Judge Sabin will be conducted by the Grand Army of the Republic in this city. At the special request of the Carson (Nev.) Post, the body will leave here to-night under the charge of a Grand Army escort. It is understood the formal services of interment will be conducted in Carson on Thursday next.

Proposed Smelting Works.

CITY OF MEXICO, May 13.—A number of German engineers are looking over tracts of land with the view to the location of extensive smelting works.

BLAINE'S MAGNETISM.

How He Impresses the Central South Americans.

A member of the Pan-American Congress answered as follows to the question as to the effect of Blaine on the Commission.

"That is one of the most extraordinary men of modern times. He is as broad as it is possible, it seems to me, for a man to be. He has a tact that is infinite and is a National matter of wealth. There is no telling what that man may amount to in this country if he lives ten years more. His desire from time to time instead of having taken out of him the intelligent, broad spirit which had dignified him, have made him more than ever. He has replaced a certain brassiness he may have had by tact which is delightful. For sometime past he has come to the commission every day and personally made over to him. When he comes there you can see a general awakening among all the delegates. When he is not there they go along very well, but when Blaine responds every body brightens up and takes an interest. He has an extraordinary tact to invite forward the unostentatious, to consider those who are informed and strong, and we close our sessions under a great obligation to him for the skillfulness and magnetism of his presence."

When on the High Seas.

On the rail, on a steamboat, aboard a fishing smack, or yachting on the coast, Hostetter's Stomach Bitters will be found a reliable means of advertising and relieving ailments to which travelers, mariners and emigrants are peculiarly subject. Sea captains, ship doctors, voyagers or sojourners in the tropics, and all about to encounter unaccustomed climates, should not neglect to avail themselves of this safeguard of well-acquired and long-tried merit. Constipation, biliousness, malaria fever, indigestion, rheumatism and affections of the bladder and kidneys are among the ailments which it eradicates, and it may be resorted to not only with confidence in its remedial efficacy, but also in its perfect freedom from every objectionable ingredient, since it is derived from the purest and most salutary sources. It counteracts the effects of unwholesome food and water.

German Colonization.

The London Times says: Colonization is one of the subjects upon which there are assumed to have been differences between the German Emperor and Prince Bismarck. It seems to be accepted as an article of faith in some quarters that Prince Bismarck was not eager to extend German possessions, and that the Emperor is willing to go great lengths in pursuit of a colonial empire.

The Chicago Anarchists.

CHICAGO, May 13.—In a short time an effort will be made to secure the release from the Penitentiary of the convicted Anarchists, Fielden, Schwab and Neibe, by an application to Judge Graham of the Circuit Court for a writ of habeas corpus, on the ground that the prisoners are detained without due process of law.

General Butler, associate counsel, feels sure of success.

The Anarchist lawyers say a writ will be asked for on the ground that after sentence was passed upon the condemned men, the case was appealed to the Supreme Court, where the findings of the Lower Court were affirmed. The prisoners were not taken before the Supreme Court to hear this affirmation of their sentences, and the claim is made that this was a breach of their constitutional rights.

Trouble Anticipated.

PRAGUE, May 13.—The strikers are holding a parade. Fears are entertained that they may attempt to destroy the machinery in the factories. The buildings are guarded by policemen with fixed bayonets, and a detachment of dragoons is encamped in front of the castle at Liben, near here.

Three thousand workmen at Koenigshof have gone on a strike. The situation is critical and troops have been summoned.

The Winning Numbers.

NEW ORLEANS, May 13.—The following numbers drew the principal prizes in the Louisiana lottery to-day:

No. 45,360 drew \$300,000.
No. 39,825 drew \$100,000.
No. 35,287 drew \$50,000.
No. 62,647 drew \$25,000.
Nos. 78,561 and 30,787 each drew \$10,000.
Nos. 24,592, 64,948, 27,689, 52,774 and 85,505 each drew \$5,000.

Badly Hampered.

ZANZIBAR, May 13.—Emin Pasha's expedition has met with unforeseen difficulties. The expedition left Bagamoyo on April 28th, and has only gone five days march from the coast. It has been greatly delayed by the death of a number of his porters and the desertion of others, thus reducing his forces one-fourth.

Violent Strikers.

HAMBURG, May 13.—Great excitement prevails on account of a strike of the gas workers. Crowds paraded the streets to-day and threw stones at a train of cars. Several passengers were injured. The police finally dispersed the mob.

Fatal Explosion.

ROME, May 13.—A quantity of ballistic, and explosive, exploded to-day at the military factory at Avigliana, near Turin. Fourteen persons were instantly killed and many others injured; some fatally.

A Pleasing Remedy

Of health and strength renewed and of ease and comfort follows the use of Syrup of Figs, as works its harmony with nature to effectually cleanse the system when constipated and bilious. For sale in 50c. and \$1.00 bottles by all leading druggists.

CATARH.

Catarrhal Deafness—May Fever A New Home Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be the case, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of three cents in stamps to pay postage. A. H. Dixon & Son, 337 and 339 West King Street, Toronto, Canada.—Christian Advocate.

Sufferers from Catarrhal troubles should carefully read the above.

A Safe Investment.

Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our advertised druggists a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case when used for any affection of Throat, Lungs or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, croup, etc., etc. It is pleasant and agreeable to take, perfectly safe, and can always be depended upon.

Trial bottles free at Wm. Fanning's Drug-Gist.

Liver Complaint—Biliousness.

The chief symptoms of this disease are depression of spirits, loss of appetite, bad tasting mouth, disagreeable breath, dry skin, with blotches and eruptions, salivary complexion and yellow eyes, tired, aching shoulders, dull pain in right side, faintness, dizziness and irregular bowels. This complaint is all of its forms can be readily cured by taking Dr. Gunn's Improved Liver Pills as directed, and a lingering spell of sickness will often be ward off by their use. Sold at 25c. a box by S. J. Hodgkinson.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Nettle's Africa Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merit. Wm. Fanning's drug-gist.

Nobody Tells Nobody.

Dr. B. Hamlin, of Lemore, Cal., says a few dozen bottles of Chamberlain's Cough Remedy which he sold there created such a demand for the remedy that he could not sell well without it. Those who use it find it so much superior to any other remedy they have ever tried that they recommend it to their friends, and that is what makes it so popular. For sale by Shoemaker & Co.

Irritation of the throat and all lung troubles are quickly relieved and permanently cured by Fryer's Kidney and Bladder Pills (it contains no opium). Price 75 cents. Sold by Wm. Fanning. The original and genuine is a blue preparation with the familiar signature of Dr. F. Fryer.

A TRIP TO WALKER LAKE.

A Short Call at Dayton, the County Seat of Lyon County—Hawthorne and Vicinity—Random Notes.

HAWTHORNE, Nev., May 11, 1890.

En route to this place I stopped over one train at Dayton, the county seat of Lyon county. Business in Dayton is quiet. The quartz and tailings mills in the immediate vicinity of the town are at present all running. What with the low water in the Carson river last summer and the severe weather of the past winter little work has been done in them the past year, and the citizens believe the outlook for this season to be a bright one, and the hope is generally expressed that the coming summer will witness a general revival of prosperity in the town.

F. W. Fairbanks, editor of the Times, believes that the next few years will witness a great development of the agricultural resources of Lyon county. He informed me that more wheat has been sown in Mason valley than ever before, and that the number of agriculturists in the county shows a gratifying increase. Stockmen the past winter met with small loss, and this would not bother them at all if prices would only take a rise.

Some five hours are consumed in making the trip from Dayton to this place. Although the water was unusually high in both the Carson and Walker rivers, I heard no reports of damage.

Hawthorne is situated three miles from Walker lake on a sloping plain. It is a bright, cheerful little town, and there is a homelike appearance to the place which makes friends for it at once. The Esmeralda county Court-house, a fine brick structure, is located here, and there are a number of substantial business houses carrying well-assorted stocks of goods, besides the usual number of saloons, restaurants, etc. In the Walker Lake Bulletin the town has a creditable exponent and advocate of its interests. Mr. McCarthy, its gentlemanly editor, is well-known in Reno.

The Newell House is being moved from its former location to a point directly opposite the depot. When the removal has been accomplished it is proposed to serve meals to passengers traveling over the railroad, as the train stops here a sufficient length of time to allow of this.

The citizens of Hawthorne evidently feel a just pride in their town. The streets are lined with young trees, while shrubbery of different kinds and flowers adorn their doorways. Their efforts have been encouraged by the railroad company, which has donated to the town a pretty little park or plaza in which are many trees that in a few years will afford a shady resting place in the warm days of summer. The town depends upon the men employed in the adjacent mines and forest for its support chiefly. It being the county seat, it naturally attracts at one time or another most of the citizens of the county to its borders, and they all contribute toward advancing its interests. It is the railroad supply point for a number of mining camps situated in Mono county, Cal. At present but little is being done in them, however.

In the immediate vicinity of Hawthorne about 100 miners are employed at present. This includes the men working for wages and prospectors. The Confidence silver mine employs the greatest number of these—14.

From 50 to 75 wood-choppers will soon be at work, also, and a revival of business is looked for.

I was informed that in the past five years the annual product of the mines in the immediate vicinity of Hawthorne averaged \$250,000, chiefly gold and silver.

Agriculture has as yet received little attention in the Walker Lake district. The possibilities are great, however, and there are indications that proper attention will be given this important matter in the near future. There are in round numbers 250,000 acres of arable land in the district. Although no efforts have been made to obtain artesian water, people who have given the matter serious thought are convinced that flowing wells could be struck at a reasonable depth. The altitude of the mesa lands in this vicinity is about 5,000 feet, and all the various vegetables which grow anywhere in the tropical zone will do well here. This is also true concerning deciduous fruits.

I was asked many times in my journey to this place if any political talk was being indulged in in Reno. As elsewhere in the State, the silver question is earnestly debated here, and the conversation on this important subject generally leads into politics. Down this way the names of A. C. Cleveland and T. O. Rieckey are frequently mentioned in connection with the gubernatorial nomination by Republicanism. The name of Theodore Winters is the only one spoken of by Democrats for the executive office.

In Lyon county James Shaw is thought to be the coming Republican candidate for State Treasurer. In Esmeralda John Forbes appears to be the general choice.

Newlands' course in Washington is warmly commended, regardless of politics, and the idea seems to be general that in case Bartine is provided for otherwise, that Newlands will be the choice of the people of the State generally for Congress.

A Special Train.

Colonel Sutherland, who is largely interested in Esmeralda county mines, arrived here with a friend on last evening's V. & T. express, and on finding the regular overland train hours late, they chartered a special train, paying \$290 therefor, to take them to San Francisco, as it was necessary for them to arrive there before the closing of the banks this afternoon. They got away from here at 3:20 this morning.

The State Convention.

The State Republican Convention will undoubtedly be held in Reno this year. It has been several years since it has been held here and Winnemucca, Elko and Carson have been visited by it, and it is now Reno's turn.

A dispatch from the north says that up to the 11th inst. a heavy rain had been falling for several days, which ended in a fall of an inch of snow. Honey and other lakes in Lassen, which have been dry for several years, are now nearly full, and the fruit trees are in full bloom.

M'KISSICK'S OPERA HOUSE.

"Said Pasha" To Be Presented To-Morrow Evening.

Of the above the Cincinnati Star says: "Said Pasha" from beginning to end is a bewildering succession of gorgeous colors, wonderful pictures, merry marches, brilliant costumes, bright tripping music, good burlesque and good-natured fun. It is light and airy and warranted to drive away a fit of the blues. It will also wake up the sleepiest of mortals and put a merry jingle in his heart. There is no doubt at all that "Said Pasha" will fill Heck's for the balance of the week. Even last night, when the rain came down in steady, discouraging streams, there was a full house, drawn together, of course, by the reputation of the opera, and now that Cincinnatians have learned for themselves of its merits, its success is a foregone conclusion. It would be almost a waste of time to attempt to tell the story of the opera. It is sufficient to say that the movement and the music are all right. And those are the things in comic opera. The first act is in Constantinople in the gardens of the Pasha, with a gorgeous oriental palace glittering in the distance. Then the scene changes in the second act to India, so that there is abundant opportunity for the gorgeous spectacle. There are three or four love affairs which, of course, come out happily, and a streak of farce comedy runs through it all. As a whole the opera is wonderfully pleasing.

A TRIP TO FRANKTOWN.

Viewing Hon. William Thompson's Stock Ranch—The Coming Races.

In view of the approaching Fair, and consequent upon a rumor that this year Washoe county will produce some wonderful horseflesh on the racing track, "a kick was as good as a wink" to the GAZETTE reporter, and, behind a spanking team, in company with a noted judge of good horses, he sped away southward yesterday to the stock farm of Hon. William Thompson, at Franktown, Washoe valley, who has been doing some most scientific work in the rapidly growing domain of scientific horse breeding, and adding additional renown to the Silver State, and Washoe county especially, as the prime realm of horse culture.

Among a score of growing equines with marvelous possibilities before them all the following animals were pointed out as the select few to do the honors of the next Fair—the blue-bloods of equine society, so to say. All of them were beauties that would delight the eye of the cynic who maintained that the most beautiful creature in the world of creation was a fine horse and a beautiful woman.

The coteries of thoroughbreds that will this coming autumn contest for the peership of supremacy with those of other sister States and counties looked marvelously superb, with coats glistening like satin, eyes flashing with fire, tempered by an intelligence almost human, and with the blood of their sires and dams showing and dancing in every movement of their graceful, sinuous bodies. One look at the intelligent creatures would almost convert the most obstinate unbeliever to the reality of the legend of the Centaurs of old—half human and half horse, and imbued with the intelligence, strength and activity of both progenitors.

The group comprised the following noble animals:

RUNNERS.

Nee Ban—Sorrel stallion, who is a half brother to King Thomas, the \$40,000 property of Senator Hearst of California, who prizes him as one of his most valued possessions.

Bessie Shannon—Bay mare, raised at Palo Alto, and written of highly by the Breeder and Sportsman.

Tom Star—Bay gelding, a racy animal with a record.

Jim Snowdon—A sorrel, old-timer.

Alecia—Sorrel, five-year-old, bred from Marshal McMahon.

Gester—Eastern bay mare.

Billy C—Half-brother to Lookout.

BROTHERS.

Florence H—A large gray mare with a yearling colt, just foaled from the \$10,000 sire Boodle.

Don Wilkes—Yearling bay stallion.

Maad D—Bay filly, yearling.

Al W—Sorrel stallion, yearling.

These fine equine specimens are in thorough grooming and training for the coming autumn Fairs and will appear on the circuit under the supervision of the following Renotes: Arthur Donnelly, Superintendent; D. Keefe, Manager, and Charley Vanden, trainer and jockey.

Humboldt News.

The Silver State of the 12th inst. says: Conductor Benson says the Humboldt is about as high as white men ever saw it up near Palisade. It is out of its banks everywhere.

The gripe, which was epidemic here last winter, still lingers here. Mrs. H. J. Pratt has had two or three attacks of it and is just recovering from a severe relapse, and Mrs. Henry Peters is yet quite ill with the disease.

DANGEROUS PURGATIVES.

A City Policeman's Very Peculiar Experience.

Mineral pills and drastic purgatives irritate the mucous coatings of the stomach and bowels. In fact their cathartic action is due to their irritation. The danger attending their steady use is apparent. The laxative principle in Joy's Vegetable Sarsaparilla gets its effect by increasing the mucous secretions of the stomach and bowels. It is purely vegetable, does not lose its effect, and is safe to be taken occasionally or continuously. Gus Videa, the well known police officer of 1326 Howard St., San Francisco, writes: "After my own experience I firmly believe that Joy's Vegetable Sarsaparilla will cure the most obstinate cases of constipation. Although cured I am still taking it and never had my system so thoroughly regulated. By increasing and diminishing the dose one has absolute command over himself with this valuable remedy."

Dental Work.

Dr. E. C. Phelps of Modesto is here, and has come to stay. He is to open dental parlors in Sunderland's building, Virginia street, next Monday week, and invites all afflicted with decayed teeth or toothache to give him a call. He is a young gentleman who has had over four years constant practice and does his work in a thorough and workmanlike manner. Call on Dr. Phelps and examine his work.

Stockmen's Arsenic Salve.

The best salve in the world for cuts, bruises, oozes, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Wm. Fanning's drug-gist.

Frequently accidents occur in the household which cause burns, cuts, sprains and bruises; for use in which cases Dr. J. H. McLean's Volcanic Oil Liniment has for years been the constant favorite family remedy.

This sour-tempered, cross, dyspeptic individual, should take Dr. J. H. McLean's Sarsaparilla. It will make him feel as well and healthy as the healthiest of us. He needs bracing up, vitalizing, that is all.

Clergyman—"Feed my lambs."

Editor—(After searching through the paper)—Ah—yes—um—here it is. You see, we've got a new foreman, and he put it under the head of "Agricultural Notes" as "Hints on the Care of Sheep."

The reverend gentleman is now traveling for the benefit of his health.

Strong Language.

J. B. Langham, ex-mayor of North Des Moines, Iowa, said recently: "I have just recovered from a severe attack of la grippe. I used Chamberlain's Cough Remedy, and applied Chamberlain's Pain Balm to my breast. These remedies were just the thing in my case. My child had croup some years ago, and we used Chamberlain's Cough Remedy with perfect success, since then we have never been without these medicines in our house. I had a cousin who was a private soldier and was employed in a job office in this city, where they were printing circulars for Chamberlain. He had a deep-seated cold and a terrible cough, and while setting up the copy he made up his mind to buy a bottle. It cured his cough, and that was the first time I ever knew anything of Chamberlain's remedies. I have been strongly in their favor ever since. My own experience and that of my family convince me that these remedies are the best in the world. That is what I think." For sale by Shoemaker & Co.

and gentleman. It ought to be added that he was also very deaf. Fearing complications, his daughter-in-law sent the grandson for the regular minister of the parish. At last the ring was found in an obscure corner, whither it had rolled, and the parties to the suspended contract tried to look resigned under the aggravating circumstances. The ministerial gentleman waked out of his reverie and said to the lady of the house: "Who is this couple?"

The answer was almost a shout, after which he subsided a moment and then continued:

"How long have you been married?"

"They really didn't know how much they were married, but stammered out a reply that was completely lost on him, for in a minute or so more he capped the conversation by saying:

"How many children have you got?"

That was too much, and would have convulsed the suffering victims had not the regular minister arrived and completed the service.

MOTHER JACKSON'S WIT.

How She Got a Day's Work Out of a Pleading Corporator.

In the long ago there lived in Sunday River valley a woman by the name of Jackson, says the Lewiston (Me.) Journal. She was better known as Mother Jackson by the settlers of the valley.

Jack's people invited the neighbors to help him husk their corn on a certain night, saying that they should have a good supper and all the pumpkin pie they could eat.

One Dudley Foster told her he would come, but if he did not have the must pay him for a day's work.

"Well," said Mother Jackson, "Dudley, how many pies can you eat?"

"I can eat five pies, any way,"

"Now, Dudley," she said, "you can not eat one pie. If you don't eat one pie for your supper you shall give me a day's work. If you eat all of one pie I will pay you for a day's work."

"Done," said Dudley. "I will take that bargain."

The husking came off at the time appointed, with all the fun of such gatherings. Dudley called for his pie, Mother Jackson had made one for him. She had baked it on a platter as large as she could get into the old stove oven. It was several inches in thickness and about as large as a lichen-wheel rim. She brought out the pie and placed it before Dudley, telling him to eat all he could. If he ate it all she would pay him for a day's work; if he failed he must give her a day's work.

Dudley thought he could eat the whole of the pie and went at it. He actually ate three-fourths of the pie, but had to give it up as a bad job, and, as the Norway Advertiser tells the tale, had to do the day's work according to the bargain.

NOVEL LIFE-PRESERVER.

A Man's Health Restored by a Reduction of His Salary.

"My life was saved by having my salary reduced," said a robust, middle-aged man to a Philadelphia Call reporter.

The remark naturally excited surprise.

"Yes," continued the man, "that was what saved me. I was assistant bookkeeper for a wholesale house and was earning \$1,200 a year. Something happened, no matter what, and I was thrown out. I was idle for two months and then went to work for \$750.

"At that time I was thin and weak, and couldn't walk a mile to save a dollar. At any rate, I thought I couldn't. But when my income was so fearfully reduced I found it absolutely necessary to economize, and I did so by walking home from my work, a distance of about five miles.

"It pretty nearly killed me at first. Then I began to enjoy it. Within three months I was walking both ways, and I've kept it up ever since. Ten miles a day, summer and winter, unless during a hard storm, and look at me! One hundred and eighty pounds, the appetite of an ostrich, and not a day's sickness in ten years.

"You see, gentlemen, how it was that the cutting down of my salary saved my life."

A FLOATING newspaper paragraph says that a Halifax lady, aged eighty, has just begun taking piano lessons. Even the old and feeble can get square with their neighbors when they go about it right.

CLUBS are multiplying in Boston with amazing rapidity; in fact the city seems to be club mad. This gives point to a recent remark of a bright woman: "We are returning," she said, "to the days of savagery, and are being clubbed to death."

"WHERE is the dashing boarder who used to be the life of the table when I was here before, Mrs. Livermore?" asked an old patron of the house, addressing the landlady. "I married him," was the quiet reply. "Indeed! He was one of the sprightliest fellows I ever met, always bubbling over with spirits and chock full of stories. He's away from home, I suppose; I haven't seen him since I returned." "He's at home; he has never been away." "Indeed! where

PRETTY LAKE GLAZIER.

The Sparkling Sheet of Water Which Gives Birth to the Mighty Mississippi.

The slowly-discovered source of the Mississippi is a sparkling little gem of a lake situated above and beyond Lake Itasca. It nestles among the pines of a wild and unfrequented region of Northern Minnesota, many miles from the nearest white settlement, and just on the dividing ridge which forms the great water-shed of North America. Within a few miles of it can be found lakes and streams whose waters are tributary to the Red river of the North and the Saint Louis, these reaching the sea thousands of miles from the mouth of the mighty Mississippi, which flows in a small brook from Lake Glazier.

This lake, which is now generally recognized, the true source of the great river, is about two miles in diameter, and would be nearly an oval in form but for a single promontory whose rocky shores give it in outline the shape of a heart. The waters of the lake are exceedingly clear and pure, coming from springs, some being at the bottom, but the three most prominent rise a few miles to the southward in low, wet land at the foot of sand hills.

On the very point of the promontory is a spring whose waters are as cold as ice, and at which Captain Jackson's party slaked their thirst while exploring the shores of the new lake. So lonely is the region in its vicinity that, for fourteen days, not even a red man was seen. Having located the source of the river, Captain Glazier and his companions descended the Mississippi in their canoes to the Gulf of Mexico, traversing its entire course, three thousand one hundred and eighty-four miles, in one hundred and seventeen days.—N. Y. Observer.

SOME FUEGIAN TRAITS.

Degraded Human Beings Who Are Experts Only in Begging.

When a song was struck up by our own party, I thought the Fuegians would have fallen down with astonishment. With equal surprise they viewed our dancing; but one of the young men, when asked, had no objection to a little waltzing. Little accustomed to Europeans as they appeared to be, yet they knew and dreaded our fire-arms; nothing would tempt them to take a gun in their hands. They begged for knives, calling them by the Spanish word *cuchillos*. They explained also what they wanted, by acting as if they had a piece of blubber in their mouths, and then pretending to cut instead of tear it.

It was as easy to please as it was difficult to satisfy these savages. Young and old, men and children, never ceased repeating the word *yammercherwer*, which means "give me." After pointing to almost every object, one after the other, even to the buttons on our coats, and saying their favorite word in as many intonations as possible, they would then use it in a neuter sense, and vacantly repeat *yammercherwer*. After yammering for any article very eagerly, they would by a simple artifice point to their young women or little children, as much as to say: "If you will not give it me, surely you will to such as these."—Popular Science Monthly.

"Sleeping-car Porter—"Had a pleasant trip, sah?" Passenger (getting into his overcoat)—"Delightful!" Porter—"Nothin' happen to mar your pleasure, sah?" Passenger—"Nothing whatever. Came through safe and sound." Porter (insinuatingly)—"Sometimes gentlemen like to take a small fee, sah, to—"

Passenger—"Good idea. I'll hand something to the engineer."

MISCELLANEOUS.

A SCARED EDITOR.

A rugged farmer stalked into the sanctum with a big whip under his arm.

"Be you the editor?" "I am," was the half apprehensive reply.

"Here's two dollars—send me your paper, for life," he said.

"You see, I went on," our daughter was sick and like to die; she drooped and grew weak and pale, had headaches, no appetite, back ached, hands and feet like ice, couldn't sleep, backed with cough, and we thought she had consumption. No medicine helped her until she tried that Dr. Pierce's Favorite Prescription mentioned in your paper, when she began to mend in no time and is now well and handsome as a rose—put me down as a life subscriber."

Now the editor is looking for another sufferer. The medicine has cured thousands afflicted as was the farmer's daughter, restoring the female functions to healthy action, and removing the obstructions and suppressions which caused her trouble. It is guaranteed to give satisfaction in every case, or price (\$1.00) refunded. It's a legitimate medicine, not a beverage. Contains no alcohol to inebriate; no syrup or sugar to ferment in the stomach and endanger digestion.
